

THE INSTITUTE OF PAPER CHEMISTRY
APPLETON, WISCONSIN

October 23, 1947

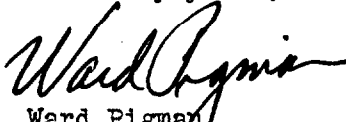

Dear Dr. Lederberg:

I regret to state that my supply of the reprints requested in your card of October 7, 1947 is exhausted. Reprints of research papers are available, but these apparently are not wanted.

You will note that I am now located in your vicinity. If I can be of help to you in the organization of your research plan, please call on me.

We enjoyed Dr. Van Potter's recent talk here very much. If you see him, please extend our thanks to him.

Sincerely yours,

Ward Pigman
Research Associate

Dr. Joshua Lederberg
Department of Genetics
